(Industry Nominee)

I Year I Sem

1. The course title **C-Programming** can have the title Programming for Problem Solving as given in AICTE curriculum.
2. The lab **C-Programming** can be the same.

II Year I Sem

1. OOP fundamentals and concepts can be introduced as part of the first unit in Python programming or **Java Programming**
2. The course **Operating Systems Lab** can have the title Operating System through Linux Lab

MALLA REDDY COLLEGE OF ENGINEERING & TECHNOLOGY
(Autonomous Institution – UGC, Govt. of India)

III Year I Sem

1. Open electives **that are** offered for other department students by the parent department have to be listed
2. IOT can be given **as** professional elective that can be handled by the parent department.

III year II Sem

1. IOT Lab can be **introduced** in the third year I sem or II sem so that students can be given an experience to IOT kit based experiments.
2. Third year I sem **Data Science** and third year II sem DWDM syllabus can be checked for redundant topics
3. R-programming is **outdated** and offering Data Science using R programming can be thought for a **change**. Python libraries can be given for Data Science
4. Internship can **have the** title as Mini Project.

IV year I and II Sem

1. The course **Project** can be given the title Project Phase I and Project Phase II.

General Suggestions

1. Web application **development** can be introduced with OOAD concepts.
2. In Open Electives **Database Systems** title can be changed to Database Management Systems.
3. Open electives **like Robotics, VLSI** can be offered to IT students.

Recommendations

1. Basic science **share in the** curriculum is less. Foreign universities focus on basic science. It will be helpful for students who prefer higher studies in foreign universities. (JNTUH also have 4 mathematics courses)
2. Contribution of **Engineering Science** is more.
3. It is **recommended to have** BOS meetings every 6 months. The revisions can be submitted to the BOS members.
