13-04-2018

Sub: Proposal for conducting one week training program on Big Data analytics using R Programming

Big Data analytics is a process used to extract meaningful insights, such as hidden patterns, unknown correlations, market trends, and customer preferences. Big Data analytics provides various advantages—it can be used for better decision making, preventing fraudulent activities, among other things.

Department of CSE, Malla Reddy College of Engineering and Technology, in association with Coign Consultancy Limited is planning to conduct a 5 day training program on Big Data analytics using R Programming. The training focuses on Introduction to big data and analytics, technology landscape, hive and pig and data analytics with R. The program aims to explore fundamentals to big data and analytics using R programming.

The training program will be conducted at Malla Reddy College of Engineering and Technology and will be useful for faculty who are interested to persue research program. The program will be conducted from 23-4-2018 to 28-4-2018.

The Technical Director, Coign Consultancy Limited is requested to approve the proposal.
