REPORT ON BENEFACTION CLUB

(CHARITY CLUB OF DEPARTMENT OF IT)

When there comes the opportunity to participate or organise the sociable events, **MRCET** is step ahead. The Benefaction club is a charitable trust group that is formed by the department of IT. This service group is formed with the intention to provide help for those who are in need.

This year, that is on 25th February 2020 we dedicated our services to an old age home. There is an old age home named **Good Samaritans**, which is located in bahadurpally. This trust was started by A.I George Rakesh Babu, initially to help the sick and affected people. Later, trust got expanded and now, it has branches in Hyderabad, Warangal and Aler.

This program was organised under the supervision of director of department Dr. G. Sharada , the head of department Dr. N. S Gowri Ganesh, NSS Coordinator Prof.Sathish Sir and Student coordinators Mr.Vijay Krishna and G.Aravind.

There is a saying that good deeds doesn't require any specific time, there will always a way be created for it.

The students and faculty of our department enthusiastically participated in the charitable event. The students of II, III and IV year donated the money within their ability. We organised lunch and served food in the afternoon for the people at the centre.

And the funds collected from the department are used in getting the daily needs, sufficient for 2-3 months. The students also managed to arrange the medical expenses for the sick. Everyone spent time in the old age home with the people. We are glad that they really enjoyed our company. This is how the day was spent in the Good Samaritans home.

THANKS
