Intel Unnati Summer Conclave- 2023

The Intel Unnati summer Conclave 2023 was organized by Intel India at the Intel Campus in Bangalore on August 5th, 2023. The event began with a registration process, where attendees checked-in and received their event materials. Following the registration, the organizers provided breakfast and tea, allowing participants to network and fuel up for the day's events. After the breakfast, the introduction session commenced, where Mr Sumeet Verma welcomed the attendees and provided an overview of the Intel Unnati Program and the purpose of the conclave. Mr.Kishore Ramisetty was one of the keynote speakers at the conclave and emphasized on the importance of innovation and impact of innovation on the society. The event concluded with the distribution of course certificates to the participants who completed the Intel Unnati Internship Program.

The Intel Unnati Conclave included interactive sessions and demonstrations, providing attendees with hands-on experience in emerging technologies. The attendees were given the opportunity to visit the labs where they interacted with some of the past year winners and got a demonstration of their models. The interaction sessions equipped attendees having a practical approach and informative sessions that made it a valuable learning experience.The Intel Unnati Program itself is focused on providing students with hands-on experience in emerging technologies, so it is likely that the interactive sessions and demonstrations at the conclave were designed to reflect this approach.

Overall, the Intel Unnati Conclave 2023 was a successful event that provided attendees with valuable insights into the Intel Unnati Program and its potential to equip students with the skills they need to succeed in the technology industry.
