## SCHOOL OF EMERGING TECHNOLOGIES

Technical Seminars

Topics

- AI in Agriculture
- AI in Customer Service
- NLP
- Robotics
- Internet of Things
- Generative AI in education
- Linear regression & Classification Algorithm
- Machine Learning for Drug Discovery
- Graph Neural Networks
- Machine Learning in Image and Video Analysis
- Federated Learning
- Supervised learning
- Unsupervised learning
- Reinforcement learning
- Biometric Authentication in Network Security
- Network Forensics
- Next-Generation Firewalls
- Deep fake Technology and Cyber security Implications:
- Cyber security Awareness Humans:
- Dark Web and Cybercrime
- Post-Intrusion Threat Hunting
- Deep Learning

Internet of Things

Cyber Security

Data Science - A

Data Science - B

Data Science - C
