JULY 2019

International Conference on Intelligent Manufacturing and Energy Sustainability (ICIMES) 21st and 22nd June 2019

An International Conference ICIMES was conducted by the department of Mechanical Engineering, MRCET campus. It is a prestigious event organized with a motivation to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students around the world to share their research findings with the global experts.

The key intention of ICIMES 2019 is to provide opportunity for the global participants to share their ideas and experience in person with their peers expected to join from different parts on the world. In addition this gathering will help the delegates to establish research or business relations as well as to find international linkage for future collaborations in their career path.

Main highlights and topics of the conference

- Factors driving the need of Smart Manufacturing & Automation, Case studies.
- Digital Transformation - Impact & Dilemmas.
- Future trends and how can you be ready for it.
- Future agenda for the academic and research institutes.

We hope that ICIMES-2019 outcome will lead to significant contributions to the knowledge base in these up-to-date scientific fields in scope.

MoU With Mahindra and Mahindra 23rd April 2019

MRCET signed a memorandum of understanding with **Mahindra & Mahindra Limited**, Zaheerabad, India.

To provide industrial exposure to the students and faculty of the Mechanical Department, a Memorandum of Understanding (MoU) was signed between the college and Mahindra & Mahindra Limited.

The college is committed to provide state of the art technologies and facilities to the students in collaboration with industries to make them better and employable engineers. Hence, the MoU will provide industrial exposure to the students and faculty of the college for guiding and enhancing them to upgrade to the new technologies, so as to develop products with the support and guidance from the company.

SHREYAS-2019 A Farewell Event to the 4th Year Students 4th April 2019

The meeting and departing are two sides of a coin in one's life but farewell at the final juncture in the institute conveys the emotional attachment the college has with its students. Farewell parties are held to say goodbye. Farewell it is just another way of musical and happy interaction between seniors and juniors. It is the time when juniors bid adieu to the seniors with their best wishes for their future.

It is the time when every one of the senior feels the sense of respect, love and hopes from their juniors. Hopes!!! That once we'll out to this world we'll do something good for our juniors, rather taking it as our moral responsibility to open new gates for the juniors.

YantriLekha

JULY 2019

The farewell doesn't mean that it is the last time of the seniors in the college but it reminds that now the real journey has started. Now their shoulders have the responsibility to maintain the reputation and protect the legacy of their institute.

Industrial Visit to Mahindra and Mahindra 9th March 2019

MRCET mechanical students visited Mahindra and Mahindra Limited, Zaheerabad. The objective of this industrial visit is to provide students an insight regarding the internal working of Mahindra Company. We know theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, the industrial visit provides the student a practical perspective on the world of work.

It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at the college.

During the visit the students also got an idea of various industrial engineering concepts including quality control, Poka-yoke, kaizen, skill mapping etc. It was an enlivening experience in which the students got a chance to get themselves familiar to the practical knowledge of the different stages of Manufacturing. This visit was to enhance the knowledge of students in spheres of manufacturing, production and quality control.

The visit was an informative experience satisfying the curiosity of engineering students, where they could relate to the theoretical knowledge of the subjects to the practical application in industry.

Academic Excellence Award For Mechanical Students on 5th Mar, 2019

4th year Mechanical engineering students received academic excellence award presented by Trinity College Dublin & Education Matters.

The trinity college awarded the students for their outstanding performance in research,

development in designing the products and most meritorious academic performance.

VISION

To become an innovative knowledge center in mechanical engineering through state-of-the-art teaching-learning and research practices, promoting creative thinking professionals.

MISSION

The Department of Mechanical Engineering is dedicated for transforming the students into highly competent Mechanical engineers to meet the needs of the industry, in a changing and challenging technical environment, by strongly focusing in the fundamentals of engineering sciences for achieving excellent results in their professional pursuits.

QUALITY POLICY

- To pursuit global Standards of excellence in all our endeavors namely teaching, research and continuing education and to remain accountable in our core and support functions, through processes of self-evaluation and continuous improvement.
- To create a midst of excellence for imparting state of art education, industry-oriented training research in the field of technical education.
