

SOFT SKILLS FOR CAREER SUCCESS

- By Getchells

Mr. Stephen Getchell and Ms. Sophia Getchell, Soft skills and Leadership skills trainers, and the founders of a startup called “GPS” from USA, were warmly welcomed by the Principal of MRCET, Dr. V.S.K.Reddy and the HOD of H&S department, Dr. V Madhusudhana Reddy. The programme was organized on the 1st of November 2017.

The Getchells enlightened the students of first year B. Tech about the importance of soft skills. They urged the young boys and girls to give importance to the English language for employment and learn soft skills for staying longer in their jobs because, it plays a key role for an effective communication. According to the speakers, a positive body language is also essential at the workplace. The right body language according to the Getchells gives one an edge over the others at workplace.

They also suggested the students to be culture conscious for certain expressions that they use often are inappropriate. For instance, they asked the students not to get carried away by the American expressions like ‘swinging the body while speaking’, or chewing gum in the classrooms and so on. According to the Getchells, not every formal set up in America encourages such a body language. Therefore, they recommended the students, (before leaving for other countries) to get to know the culture of other countries for better understanding of the attitudes’ of the natives.

The students and the faculty members of MRCET enjoyed the talk thoroughly. The guests were honored with mementos and certificates.

Dr V S K Reddy presenting mementos to the speakers.
