

## POWER OF THOUGHTS

A guest lecture by Dr. Vishwanadham was organized for first year students by Mallarddy college of Engineering and Technology on 18<sup>th</sup> July 2018. The talk was very genuine and powerful.

Dr. Vishwanadham was very passionate about the topic. He urged that thoughts are indeed powerful to create feelings which in turn create action that leads to actions. He also spoke about how life could become easier if self talk is more positive.

Professor Vishwanadham also spoke about how one should live in the present rather than thinking about the past and ruining the present. It was certainly an inspiring talk.
