

A WORKSHOP ON ROBOTICS

Malla Reddy College of Engineering and Technology (MRCET) organized a Robotics workshop for two and a half days (26th of August 2019 to 29th of August 2019). A young team of motivated trainers of *Robotics Vidya* inspired the first year B.Tech students of EEE and ECE. The students were very excited about making little Robots. It was an invigorating experience for the new students because they were divided into groups and had to make robots. The workshop was very interesting and it was indeed a successful event.

The students were provided kits from the *Robotic Vidya*. They were also awarded certificates.
