**INTRODUCTION AND IMPLEMENTATION OF CODE TANTRA PLATFORM TO THE  
FIRST YEAR STUDENTS AT MRCET**

**Codetantra AI** assisted Assessment Platform with Online Remote Proctoring

Comprehensive assessment platform with support for a variety of tests & an ultra-powerful remote proctoring solution for uncontrollable test-taker environment. An introduction and implementation programme were conducted for the first years by the Codetantra team on 28th December 2021 in Malla Reddy College of Engineering and Technology.

**Mrcet Mird**  
28 Dec 2021

Codetantra Orientation to all the first year students held on  
28th December, 2021 at MRCET.  
[#codetantra](#) [#orientation](#) [#mrcet](#)

The Programme was conducted for ECE-A, B, C, D, CSE-CS, CSE-DS, CSE-IOT, IT-A, B, &C, and EEE from 10 AM. To 12 P.M. It was conducted for the students of CSE-A, B, C, &D, CSE-AIML-A, B, &C, ANE&MECH, AI&DS, B. TECH-AIML students from 2 P.M. to 4 P.M. The programme started in the presence of the Director, Dr VSK Reddy, Principal, Dr S. Srinivas Rao, and HOD of H&S, Dr. V. Madhusudhana Reddy and the eminent dignitaries of MRCET.

Codetantra is a tech-startup company which has developed a Cloud Based Automated Programming Tutor that builds coding abilities through an interactive, learn by doing methodology. With a pursuit to revolutionize the way technology is taught in classrooms, the company offers automated online training of programs for programming languages like Java, Selenium 2.0, Big data + Hadoop, C, HTML & CSS. With its auto-evaluation tools, Codetantra makes it easy for students to learn programming with instant feedback.

Codeantra Team Marketing Head Chandra Sheker addressed the young first years and informed them the relevance of C language in the global market. They also talked about how a person who possesses programming skills has an edge over others. The adaptive learning models, very flexible course structures cater to all categories of curriculums and blended teaching methods. The students were told that Code Tantra platform will qualitatively assess and train the students for campus interviews and the programme covers all coding skills, programming languages like Java, Selenium 2.0, Big data + Hadoop, C, HTML & CSS. The Principal, Dr. S. Srinivas Rao, said that he was confident that the students would work on their “levels” to help themselves. And he also advised to make use of Comprehensive composite recording and playback of all aspects of a test, including multiple cameras, screen, times, navigation activity, locations, answers, multiple audio streams The HOD of H&S, Dr Madhusudhana Reddy thanked the Codetantra team.
