

INTRODUCTION TO CODE TANTRA

Code Tantra is more than just a coding course; it's a holistic approach to learning how to code. It will help the first year B.Tech students become not just coders, but creators who understand the deeper connections between technology and human experience.

The novice professionals are all geared up for the programme in their professional attires!

Taking notes from the CodeTantra trainer

The Principal of MRCET, Dr Srinivas Rao addressing the first year B.Tech students.

The HOD of H&S, Dr.Madhusudhana Reddy addressing the first year students on the importance of learning coding.

Students are engrossed in the session!

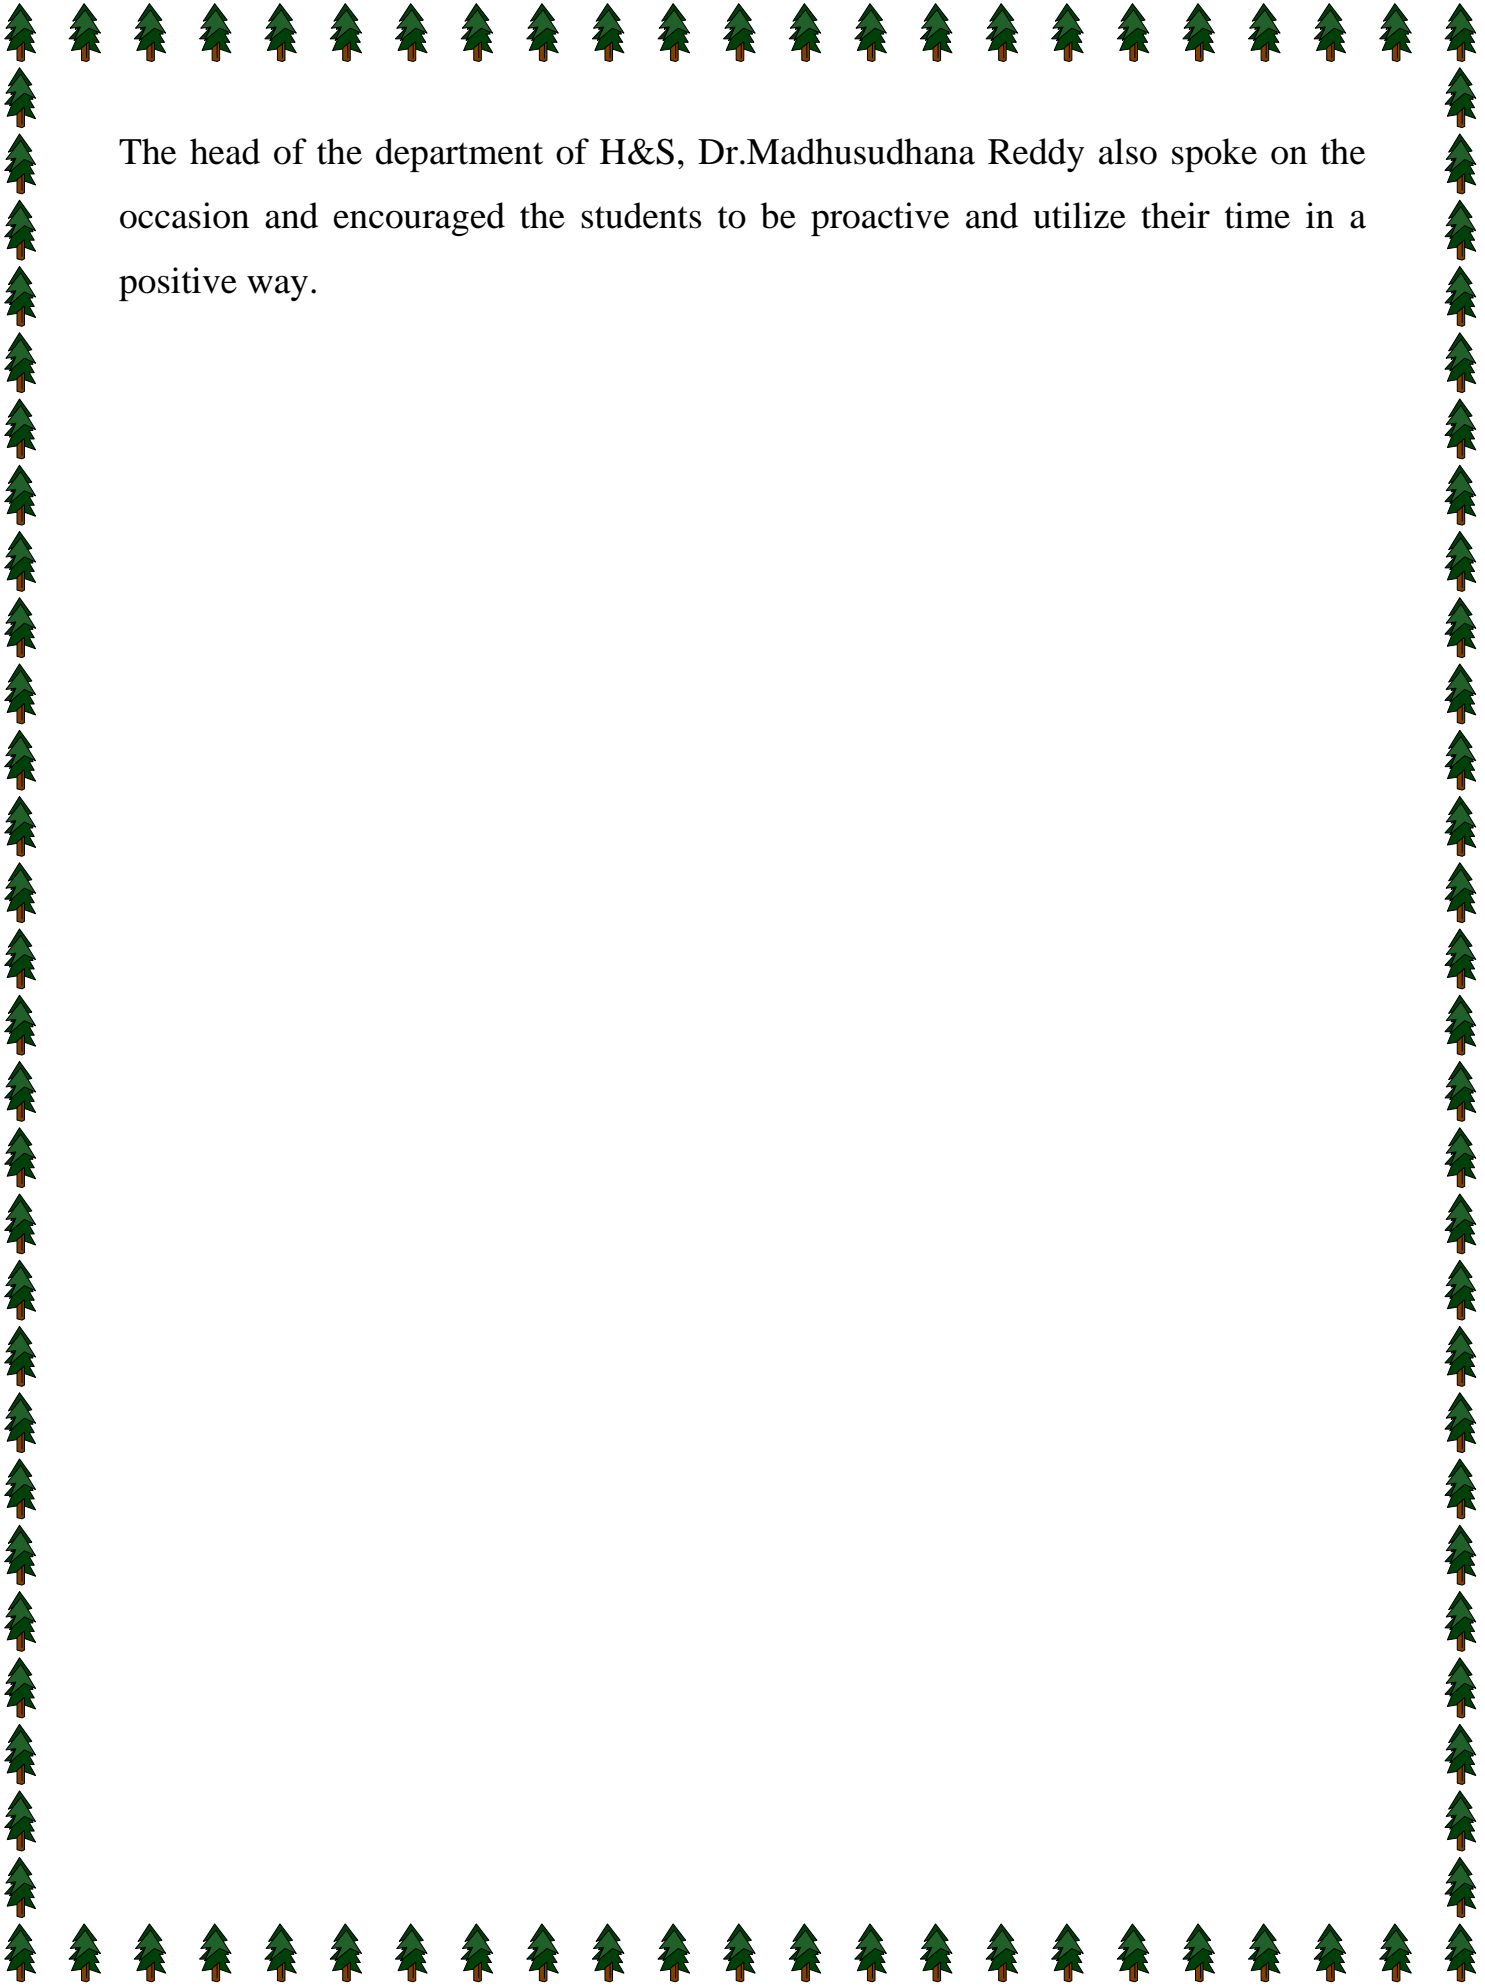

The programme was conducted in the placement block on 1st October, 2024.

The following questions were discussed in the session:

- Why Codetantra?
- How to use it?
- Significance of CodeTantra?
- How does it shape a student's career?

If the students practice the courses consistently on CodeTantra, they develop logical, analytical and problem solving skills and there are high chances of getting great job opportunities.

The team also demonstrated how to login into their accounts of CodeTantra. The session ended after an effective Q & A session.

The head of the department of H&S, Dr.Madhusudhana Reddy also spoke on the occasion and encouraged the students to be proactive and utilize their time in a positive way.
