DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

INNOVATIVE CLASSROOM TEACHING

2023-24

JUST
A
MINUTE

Department of Computer Science and Engineering

Name of the Activity : Just A Minute
Academic Year : 2023-24
Topic : DBMS

Legend has it that, back in the school days of the BBC radio quiz show creator Ian Messiter, he was caught daydreaming in class by a particularly stern teacher. Ian's punishment was to repeat verbatim everything the teacher had said during the previous minute, without hesitating or repeating himself. History does not record how Ian fared in this embarrassing challenge, but it gave the young man an idea.

When the time came for Messiter to design radio quiz shows for the BBC, the thought resurfaced and became the format for a hugely popular game. The contestant would speak on a given subject for a full sixty seconds, "without hesitation, deviation or repetition". Over eight hundred episodes later, *Just A Minute* has deserved popularity around the world.

They must speak continuously for one minute. No long pauses are allowed, only those a presenter would normally take. They may not change the subject or repeat information or opinion; the opposing team can raise an objection if they feel this has happened, best done by raising a hand.Every student must participate and once the contestant has completed their minute, they are given a score based on their speech**.**

Outcomes:

1. It helps students to develop confidence.
2. The student's will be able to speak instantaneously without notes or preparation.
3. The game is also good fluency practice, requiring the quick recall of appropriate vocabulary
4. It enables student to improve interest in topics outside academics.
5. Enable students to learn details of subject as well.
